DETAILED ACTION

Response to Arguments

1. Applicant's arguments, filed 7/15/2002, have been fully considered and are persuasive, as the claims have been amended.

Allowable Subject Matter

- 1. Claims 9 to 19 are allowed.
- 2. The following is an examiner's statement of reasons for allowance: The art of record does not suggest the respective claim combinations together and nor would the respective claim combinations be obvious with: a charge integrator coupled to said output port of said phase detector, said charge integrator configured to produce an accumulation signal at an output terminal thereof proportional to an amount of stored charge accumulated through a plurality of output pulses received over time from said phase detector, wherein receiving said output pulse in first said state removes charge from said charge integrator by an amount proportional to said width of said output pulse and receiving said output pulse in said second state adds charge to said charge integrator by an amount proportional to said width of said output pulse.
- 3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
